

**Dr Tapan Gogoi Endowment ACOIN Assam State Chapter Oration 2019**

Dr. Taba Khanna, MS. As the State Programme Officer of the National Programme for Control of Blindness in Arunachal Pradesh, Dr. Taba Khanna is the key person responsible for eliminating avoidable blindness and visual impairment in India's North Eastern-most state. This is no easy task, especially since Arunachal shares international borders with Bhutan, Myanmar and China. With a prevalence of blindness over 2.5% and a CSR of less than 1,000, Arunachal is among the most deprived states in the country. Coupled with a population density of 14 persons per sq. km. and a significant lack of human resources and infrastructure, this makes it one of the more challenging environments to deliver quality eye care services. To honour Dr. Khanna for his commitment and dedication is also to honour all those who have worked with him under the extreme conditions of Arunachal to bring eye care to all those in need. For this reason, Operation Eyesight Universal is proud to name Dr. Taba Khanna as its Eye Health Hero
